<b>Colt</b>	VF	-	-	-	-

We offer rootstocks with a dormant eye and grafted 'in hand' ones from eyelets and cuttings coming from our own nursery or NAK-Horst nursery on the own rootstock. So we have assurance that this material will keep identity of the variety and be free from any diseases and viruses.

The rootstock nursery and butwood orchard are planted with elite base material coming from:

- NAK – Horst – Holland
- Baden-Wurttemberg – Stuttgart – Germany
- OEMS – Prusy – Poland
